Exhibit Hours

Tuesday, August 9th 4:00pm – 7:00pm

Wednesday, August 10th Noon – 7:00pm

Thursday, August 11th 10:00am – 2:00pm

[Session 103-A “Storage Security: Back to the Future”](#) – Tuesday, August 9th, 2016 3:15 PM

[Session 104-A “Security in a Flash”](#) – Tuesday, August 9th, 2016 4:35 PM

Flash Memory Summit focuses on flash memory, a type of constantly powered nonvolatile memory that can be erased and rewritten in units called blocks.

The Flash Memory Summit is the only place where you will hear the people making these products happen! Network with companies and people that will create the next generation of hardware and _software at the Flash Memory Summit.
