

Flash Memory Summit

Flash Memory Summit Offers Career Growth Opportunities for College Engineering Students

SANTA CLARA, CA – June 6, 2017 – The Flash Memory Summit (FMS) is excited to provide a once-in-a-lifetime learning opportunity for college Engineering Students to participate in the 2017 conference. This year, FMS will be held August 8-10 at the Santa Clara Convention Center. The program offers a complimentary, full-conference registration in exchange for students' participation at the Summit. Upon acceptance into the program, students will meet with a recruiter and receive free career advice during the event. Students will also get exposure to all the top flash memory vendors, and systems developers, exhibitors plus entry to the networking events held throughout the show.

According to Tedra Nikolai, FMS Academic Program Coordinator, "the FMS academic program offers students many perks such as a travel grant and a booth in our Exhibit Hall to display their projects." To showcase your work at the world's largest event focused on storage, find submission details at www.flashmemorysummit.com.

FMS features the latest technology trends, the most exciting products, and the broadest coverage of a rapidly expanding market. In 2016, FMS drew almost 6,000 registrants and over 100 exhibitors. The 2017 version already projects significant growth. The conference also features new marketing and market research tracks, and sessions sponsored by NVM Express, SNIA, JEDEC, SCSI Trade Association, SD Card Association, and the Fiber Channel Industry Association. Popular continuing features include an expert table session, performance testing results, and a VC Forum.
