### **Biography**

Tony Lavia has over 25 years of experience in the high technology and telecommunications industry. He has served in executive positions as CEO and General Manager for large public companies and for startup companies in the U.S., Canada, and Europe. Tony holds a Ph.D. in Computer Sciences from the University of Waterloo. He is currently the President and CEO of Flexstar Technology, a company in Silicon Valley, which develops and manufactures testing equipment for SSDs.
