

Flash Memory Summit

# FLASH at the Speed of FLASH FLASH at the Cost of DISK

Rajan Goyal  
CTO, Fungible  
[rajan.goyal@fungible.com](mailto:rajan.goyal@fungible.com)

Flash Memory Summit

# Agenda

- Missing IOPS
- Efficient Storage
- DPU
- Storage evolution

Flash Memory Summit

# Agenda

- Missing IOPS
- Efficient Storage
- DPU
- Storage Evolution

Flash Memory Summit

# Disaggregated Storage Architecture

Storage Client

Storage Target

Storage Controller

Flash Memory Summit

# Looking for the Missing IOPS

Storage Client

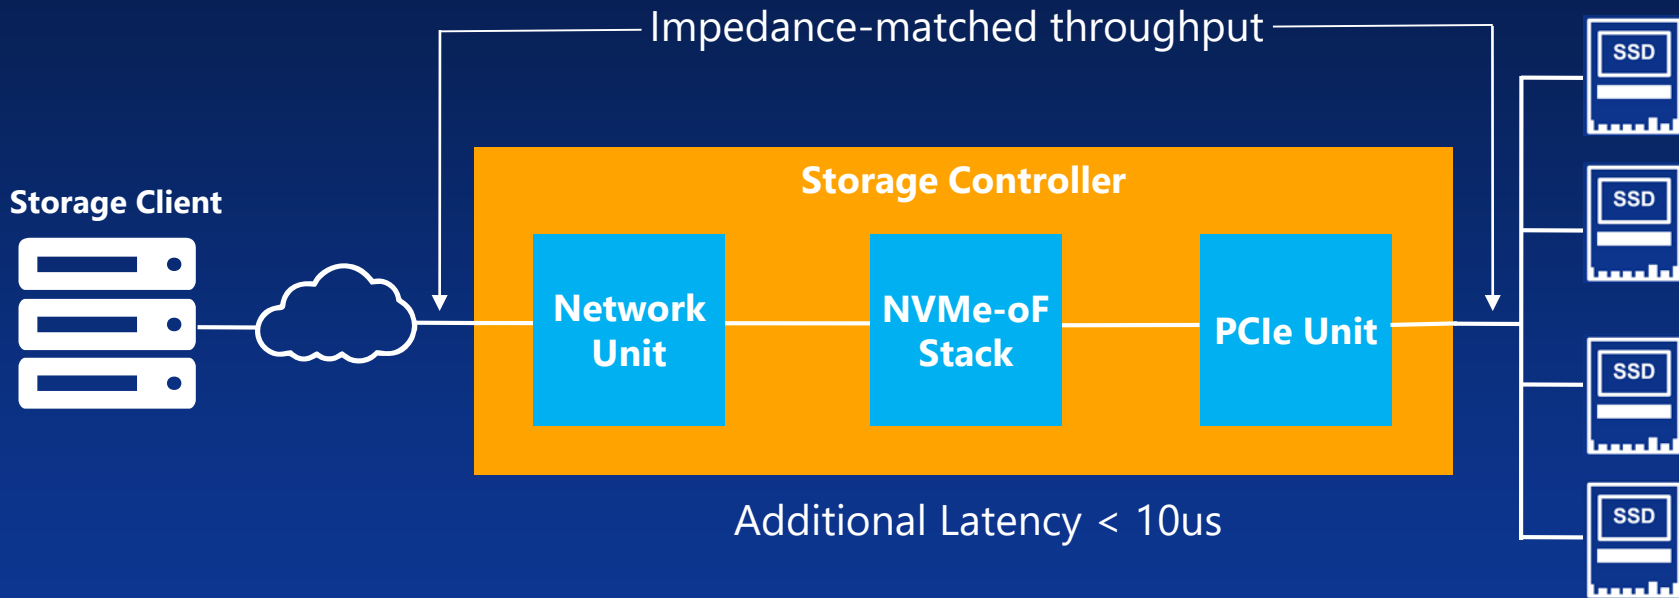

Storage Target

Storage Controller

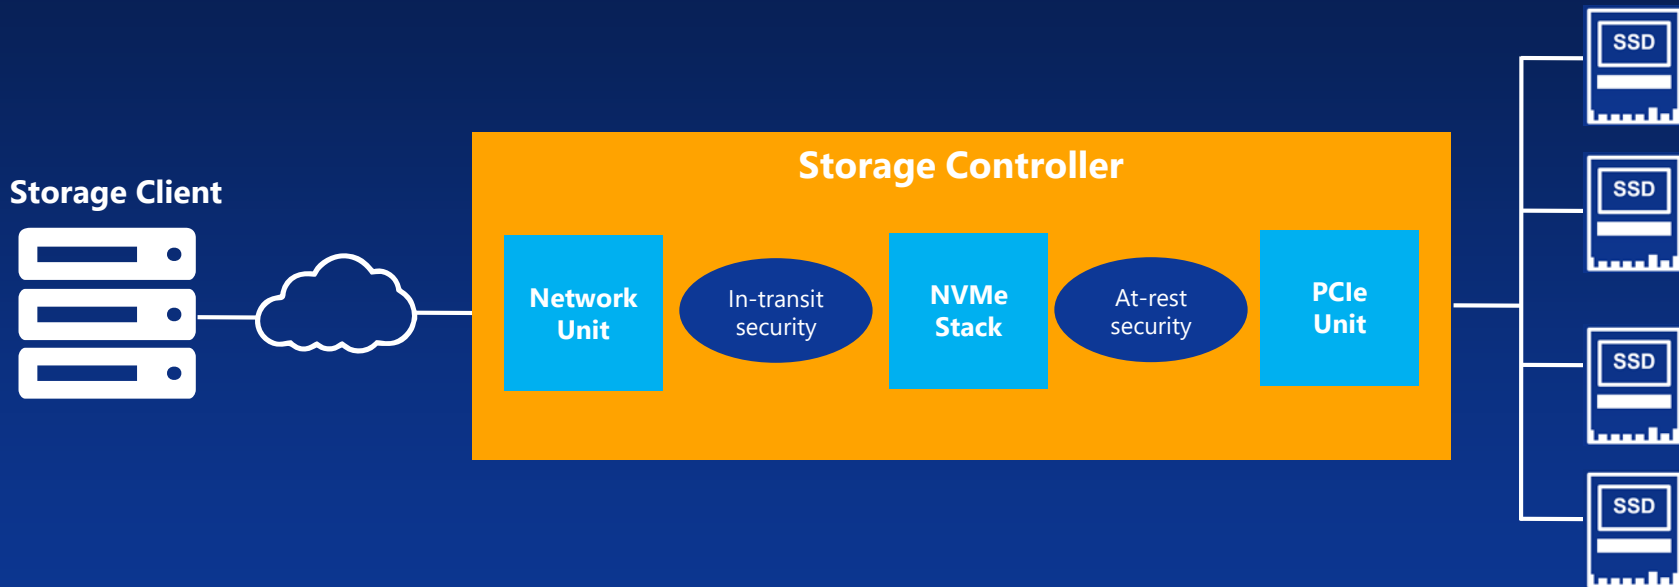

# High IOPS, Low Latency controller

Controller must enable line rate SSD IOPS to clients

# + In-line Security at No Impact to Performance and Cost

Provide Robust E-W Network Security and At-Rest Security

Flash Memory Summit

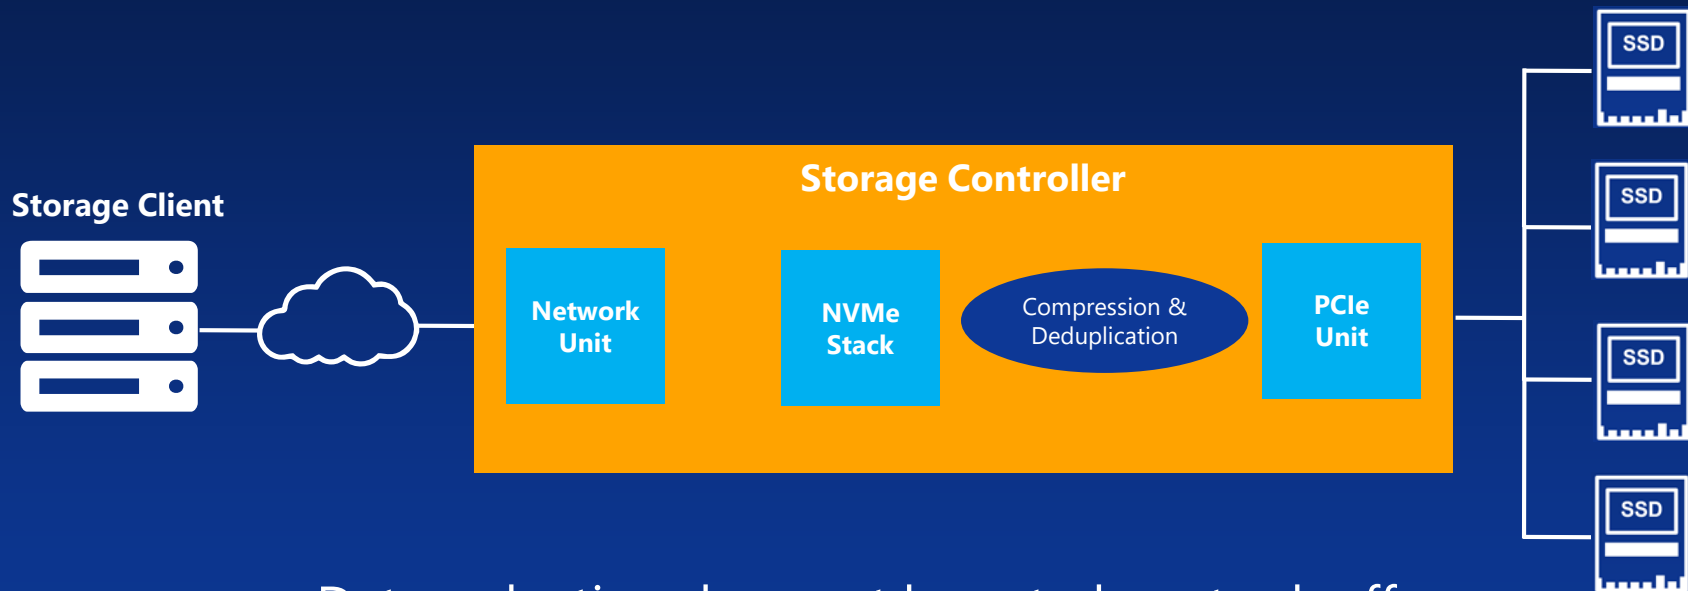

# Agenda

- Missing IOPS
- Efficient Storage
- DPU
- Storage Evolution

# + In-line Data Reduction at No Impact to Performance and Cost

Data reduction does not have to be a tradeoff between compression ratio and throughput

Flash Memory Summit

# + In-line Data protection at No Impact to Performance and Latency

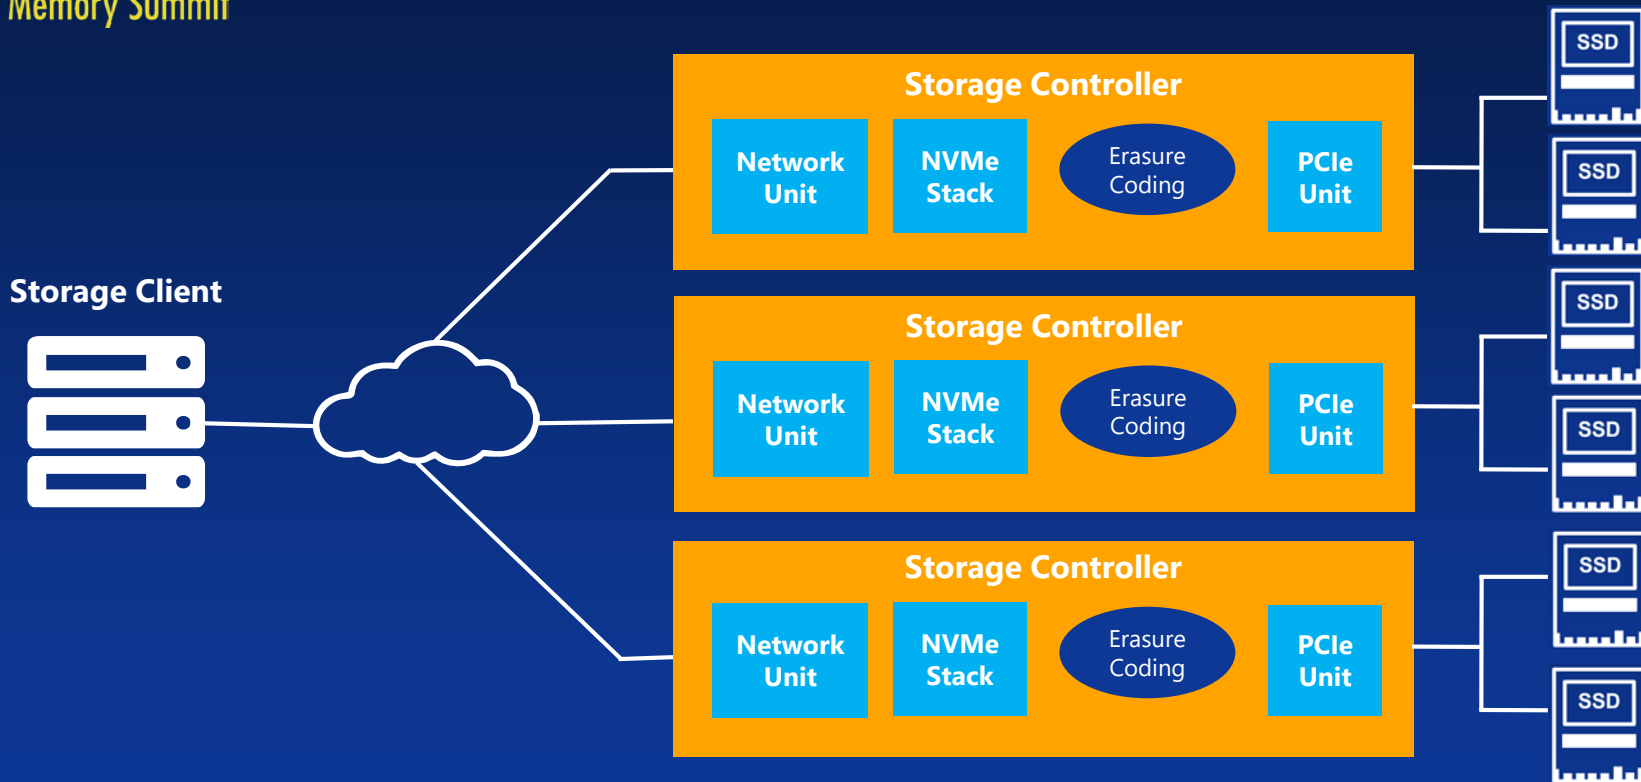

Storage Client

Flash Memory Summit

# + Higher Reliability with Lower Storage Overhead

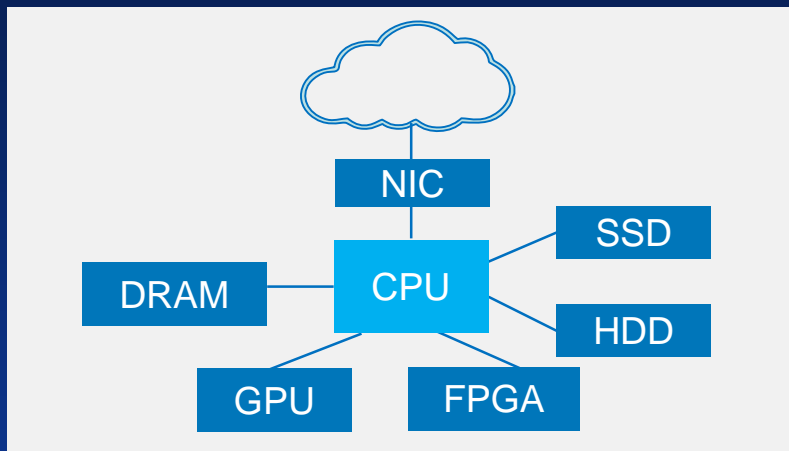

Flash Memory Summit

# Agenda

- Missing IOPS
- Efficient Storage
- DPU
- Computational Storage

## Today - Data Centers are still based on Legacy PC-like Architecture

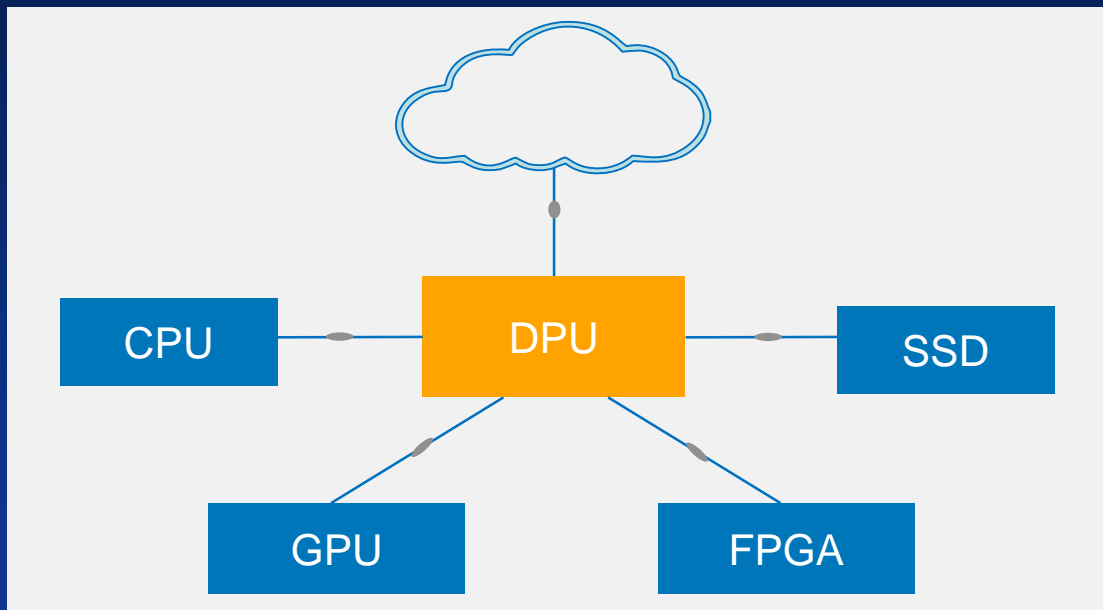

... with some added accelerators  
But CPU remains the bottleneck

Flash Memory Summit

# Introducing ... The Fungible DPU

## A new category of programmable microprocessor

Flash Memory Summit

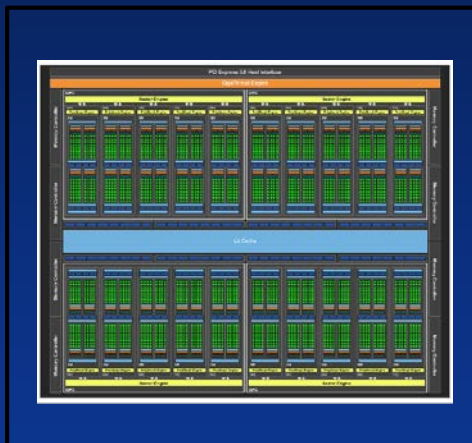

# The Data Processing Unit (DPU)

**CPU**

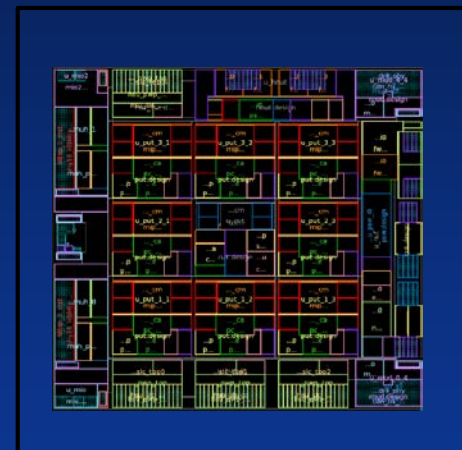

General-purpose application processing

**GPU**

Complex math, AI/ML workloads

**DPU**

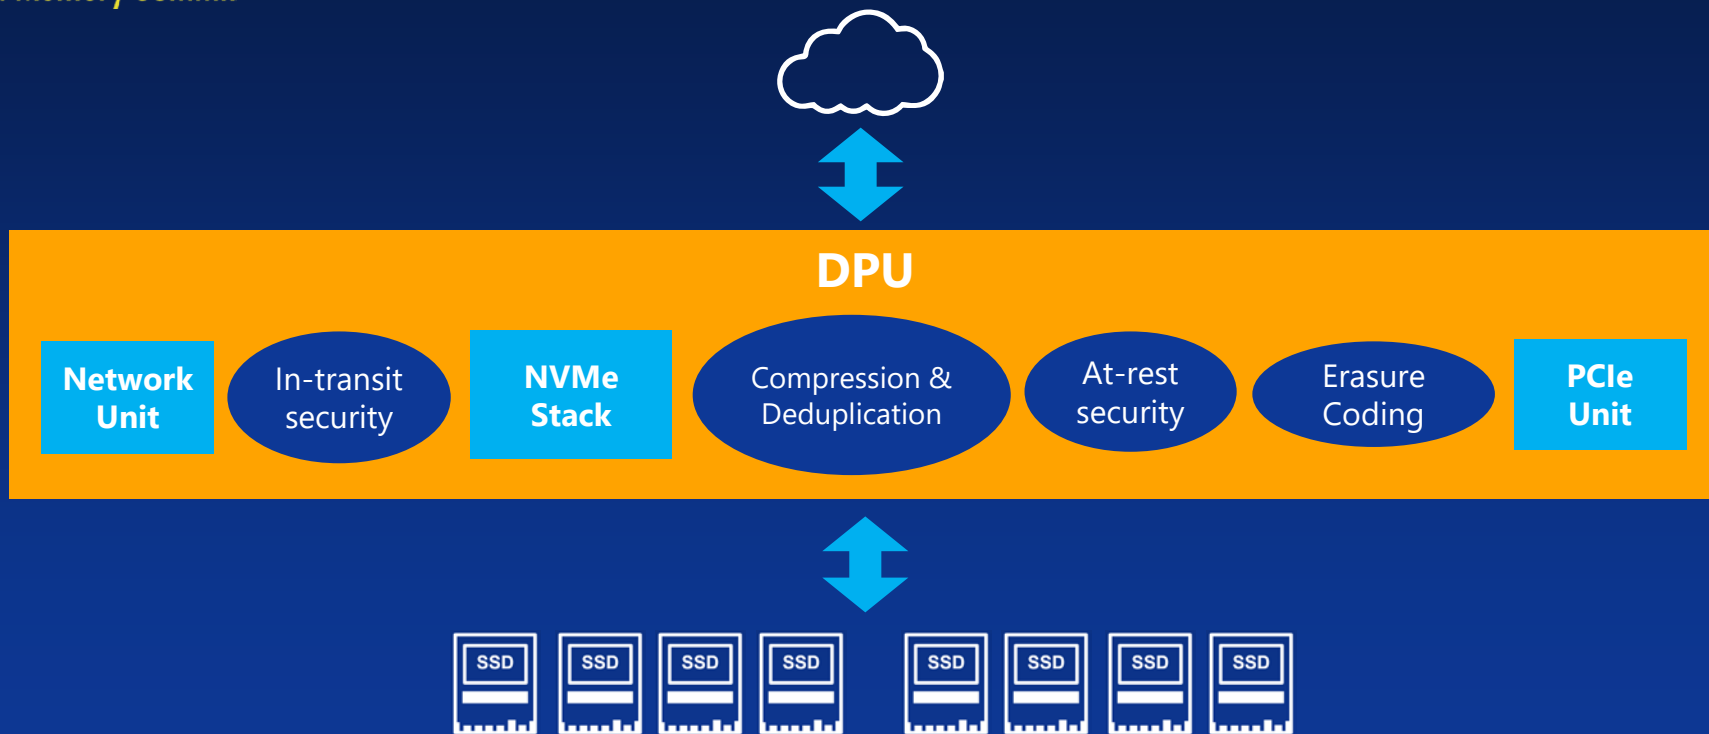

Data-centric infrastructure workloads

Flash Memory Summit

# Secure Scale-Out Storage @ the speed of FLASH & the \$ of DISK

Flash Memory Summit

# True Scale-Out Disaggregated Storage

Compute Nodes

Flash Memory Summit

# Agenda

- Missing IOPS
- Efficient Storage
- DPU
- Storage Evolution

# Storage Evolution

Compute Nodes

DPU offers significant compute capabilities closer to the storage

Flash Memory Summit

# FLASH at the Speed of FLASH FLASH at the Cost of DISK
